accco partners help corporates develop their digital future with the help of engaged Start Up teams. We are looking for a dedicated, enthusiastic and experienced Innovation Manager to **design and run our SCOAP** (SCOAP = Structured Corporate Accelerator) **Startup Accelerator Programs together with our delivery partners for our global customers**. You will work on a full-time basis, embedded in the acccoi team in a very active role with broad responsibilities.

Responsibilities:

- Align and individualize the Corporate Accelerator Program with the strategy of the clients
- Support our partners in navigating the SCOAP Methodology and SCOAP Software Platform
- Ensure that KPIs and milestones of our end-clients are met
- Create appropriate quality and time management schedules together with the consultants of our partners
- Be the first point of contact for our partners in the pre-sales consulting and project delivery phase
- Develop new support systems for our partners and end clients to ensure higher success rates and outcomes
- Plan and create methods for a community of SCOAP Innovation Managers to share their best practices
- Work at our Vienna office directly with our partners and global clients (limited international travel required)

Requirements

- Studies in International Business Administration, Marketing Communications, New Media, Communications, Multimedia Communications, or Economics
- Proven track record in extra curricula activities required and previous work experience is a plus
- Quality focused and results driven personality
- Innovation, next-generation technology and Start Up spirit are in your center of interest
- Team oriented and flexible work habits
- Fluency in English and German, other language skills are helpful

Depending on your experience and qualification, we offer a remuneration based on Austrian collective agreement starting at a minimum gross of €1,400.00 per month.
